ANAESTHESIA
Scientific Editor . . . RONALD WOOLMER

★

CAUSATION OF CANCER
Scientific Editor . . . . . E. BOYLAND

★

METABOLISM OF LIPIDS
Scientific Editor . . . . . G. POPJÁK

MEDICAL DEPARTMENT · THE BRITISH COUNCIL · 65 DAVIES STREET · LONDON W.1

CONTENTS OF VOLUME FOURTEEN

★

NUMBER 1. *Anaesthesia*

Scientific Editor: RONALD WOOLMER

		PAGE
INTRODUCTION: Progress in anaesthesia	*John Gillies*	1
Effect of anaesthetics on mechanical receptors	*D. Whitteridge*	5
Biochemical disturbances associated with anaesthesia	*J. D. Robertson & S. C. Frazer*	8
The myoneural blocking action of anaesthetic drugs	*J. D. P. Graham*	15
Principles of inhalers for volatile anaesthetics	*H. G. Epstein*	18
Carbon-dioxide homeostasis in anaesthesia	*E. A. Pask*	27
The muscle relaxants: recent developments	*H. C. Churchill-Davidson*	31
Anaesthesia for obstetrics: recent advances	*J. Selwyn Crawford*	34
Neonatal anaesthesia	*G. Jackson Rees*	38
Anaesthesia in burns	*Harry G. Middleton & L. J. Wolfson*	42
Hypothermia in surgery: the present position	*B. G. B. Lucas*	46
The advantages of controlled hypotension in surgery	*G. E. Hale Enderby*	49
The disadvantages of controlled hypotension in surgery	*M. H. Armstrong Davison*	52
The treatment of respiratory inadequacy	*Ronald Woolmer*	54
Electrographic monitoring of anaesthesia	*B. D. Wyke*	58
Theoretical considerations of the effects of re-breathing in two semi-closed anaesthetic systems	*W. W. Mapleson*	64
An investigation into deaths associated with anaesthesia	*G. Edwards, H. J. V. Morton, E. A. Pask & W. D. Wylie*	69
Notes on Contributors		3
Book Reviews		71

★

NUMBER 2. *Causation of Cancer*

Scientific Editor: E. BOYLAND

		PAGE
INTRODUCTION	*Alexander Haddow*	73
Chemical carcinogens and their modes of action	*Alexander Haddow*	79
The biological examination of carcinogenic substances	*E. Boyland*	93
The mechanism of chemical carcinogenesis, with particular reference to the time of development of irreversible changes in the epithelial cells	*J. W. Orr*	99
Immunological basis of carcinogenesis	*H. N. Green*	101
Aspects of endocrine carcinogenesis	*F. Bielschowsky & E. S. Horning*	106
Cocarcinogenesis	*M. H. Salaman*	116
Avian carcinogenesis	*P. R. Peacock*	121
Some possible exogenous factors in the causation of lung cancer	*Sir Ernest Kennaway & A. J. Lindsey*	124
Carcinogenicity of mineral oil fractions	*J. W. Cook, W. Carruthers & D. L. Woodhouse*	132
Occupational carcinogenesis	*M. W. Goldblatt*	136
Aromatic amines as carcinogens in industry	*A. L. Walpole & M. H. C. Williams*	141
Some aspects of the experimental induction of tumours of the bladder	*Georgiana M. Bonser, D. B. Clayson & J. W. Jull*	146
The biochemistry of cancer of the bladder	*E. Boyland*	153
Cholesterol carcinogenesis	*I. Hieger*	159
Some dynamic aspects of chemical carcinogenesis	*L. A. Elson*	161
Experimental liver tumours	*J. M. Barnes & R. Schoental*	165
Nuclear and allied radiations and the incidence of leukaemia in man	*W. M. Court-Brown*	168
The development of leukaemia in irradiated animals	*R. H. Mole*	174
Carcinogenesis of skin tumours induced by radiation	*A. Glücksmann*	178
Experimental induction of tumours of the thyroid by radiation	*I. Doniach*	181
The dose-response relationship in radiation carcinogenesis	*R. H. Mole*	184
Notes on Contributors		190
Book Reviews		193

NUMBER 3. *Metabolism of Lipids*

Scientific Editor: G. POPJÁK

		PAGE
INTRODUCTION: Lipid metabolism	*A. C. Frazer*	197
Biosynthesis of fatty acids	*Priscilla Hele*	201
Hormonal effects in vitro on lipogenesis in mammary tissue	*S. J. Folley & Mary L. McNaught*	207
Fat absorption and its disorders	*A. C. Frazer*	212
Biosynthesis of cholesterol	*J. W. Cornforth & G. Popják*	221
The absorption and metabolism of sterols	*J. Glover & R. A. Morton*	226
Removal of lipids from the blood stream	*J. E. French, B. Morris & D. S. Robinson*	234
Hormonal control of the circulating lipids	*G. S. Boyd & M. F. Oliver*	239
The effect of dietary fats on the blood lipids and their relation to ischaemic heart disease	*B. Bronte-Stewart*	243
Fats and blood coagulation	*J. C. F. Poole*	253
Essential fatty acids and the skin	*H. M. Sinclair*	258
Essential fatty acids and human disease	*A. T. James & J. E. Lovelock*	262
Lipids and the structure of myelin	*J. B. Finean & J. D. Robertson*	267

Notes on Contributors 274

Book Reviews 276

INDEX TO VOLUME FOURTEEN

Names printed in large capitals are those of authors who have contributed articles to the symposia. Titles of books are printed in italics. Titles of symposia are printed in bold type.

A

Acetamidofluorene, 122
2-Acetamidofluorene, 83
Acetate as precursor in fatty acid synthesis, 201
—— —— —— of cholesterol, 221
Acid-base imbalance in anaesthesia, 8
Adrenal corticoids, effect on fatty acid synthesis, 210
—— tumours, 111
Adrenocortical hormones, effects of anaesthesia on secretion, 13
Amines, aromatic, as carcinogens, 82, 139, 141
Aminodiphenyl derivatives, 143
4-Amino-4′-fluorodiphenyl, 83
Aminostilbene derivatives, 144
Anaemia, aplastic, and leukaemia, in patients irradiated for ankylosing spondylitis, 194
Anaesthesia, biochemical disturbances associated with, 8
—— complications: *Anaesthetic accidents*, 71
—— deaths associated with, 69
—— electrographic monitoring of, 58
—— for obstetrics, 34
—— in burns, 42
—— neonatal, 38
—— recent progress, 1
—— **symposium on, 1–71**
Anaesthetics, effect on mechanical receptors, 5
—— myoneural blocking action, 15
Analgesia: *Inhalational analgesia in childbirth*, 71
—— spinal: *Lumbar puncture and spinal analgesia*, 2nd ed., 72
Asbestos as carcinogen, 136
Aspiration during obstetric anaesthesia, danger and prevention, 35
Atherosclerosis, pathogenesis, 248
—— relationship to ischaemic heart disease, 248
Atmospheric pollution, relation to lung cancer, 128
Atomic energy in medicine, 195
Azo carcinogens, 81

B

BAKER, F. J., SILVERTON, R. E. & LUCKCOCK, E. D.: *Introduction to medical laboratory technology*, 2nd ed., 196
BARNES, J. M. & SCHOENTAL, R.: Experimental liver tumours, 165
BARON, D. N.: *Essentials of chemical pathology*, 195
3:4-Benzopyrene, 79
BIELSCHOWSKY, F. & HORNING, E. S.: Aspects of endocrine carcinogenesis, 106
Bile, role in sterol absorption, 226
Biographical notes on contributors, 3, 190, 274
Bladder, cancer, biochemistry, 153
—— tumours, experimental, 146
Blood coagulation, effect of fats, 253
Bone tumours, 111
BONSER, G. M., CLAYSON, D. B. & JULL, J. W.: Some aspects of the experimental induction of tumours of the bladder, 146
Book reviews, 71, 193, 276
BOYD, G. S. & OLIVER, M. F.: Hormonal control of the circulating lipids, 239
BOYLAND, E.: The biochemistry of cancer of the bladder, 153
—— The biological examination of carcinogenic substances, 93
Brain, electroencephalographic changes in anaesthesia, 59
Breast, cancer, 113
BRONTE-STEWART, B.: Effect of dietary fats on the blood lipids and their relation to ischaemic heart disease, 243
BRYCE-SMITH, R., *see* SEWARD, E. H., 71
Burns, anaesthesia during treatment, 42

C

Cancer: *Biological aspects of cancer*, 194
—— causation: introduction to symposium, 73
—— —— **symposium on, 73–192**
—— endocrine therapy, 113
—— occupational carcinogenic influences, 136
—— of bladder, biochemistry, 153
—— of lung, exogenous factors, 124
Cancer. Vol. 1: Research into causation. Vol. 2: Pathology of malignant tumours, 193
Cancer statistics for England and Wales 1901–1955: Summary of data relating to mortality and morbidity, 194
Carbon-dioxide homeostasis in anaesthesia, 27
Carcinogenesis, avian, 121
—— chemical, dynamic aspects, 161
—— endocrine, 106
—— immunological basis, 101
—— occupational, 136
Carcinogens, alkylating, 85
—— biological examination, 93
—— chemical, mechanism of, 79, 99
—— growth-inhibitory action, 162
—— in mineral oil fractions, 132, 138
—— metabolism and excretion, 161
CARRUTHERS, W., *see* COOK, J. W., 132
CASE, R. A. M., *see* MCKENZIE, A., 194
Cell metabolism, effects of anaesthesia on, 9
"Cephalin", 254
Chlorpromazine in labour, effect on child, 35
Δ^5-Cholestene-3-one, 80
Cholesterol absorption, inhibition by other sterols, 227
—— biosynthesis, 221
—— carcinogenesis, 159
—— *Cholesterol: chemistry, biochemistry and pathology*, 278
—— esterase, role in sterol absorption, 228
—— serum level, effect of different fats on, 245
Chromium as carcinogen, 137
CHURCHILL-DAVIDSON, H. C.: The muscle relaxants: recent developments, 31
Chylomicra, coagulant activity, 254
Chylomicron lipid, removal from blood, 235
CLAYSON, D. B., *see* BONSER, G. M., 146
Coal as carcinogen, 138
Cocarcinogenesis, 116
Coeliac syndrome, 215, 216
Coke as carcinogen, 138
COOK, J. W., CARRUTHERS, W. & WOODHOUSE, D. L.: Carcinogenicity of mineral oil fractions, 132
COOK, R. P.: *Cholesterol: chemistry, biochemistry and pathology*, 278
CORNFORTH, J. W. & POPJÁK, G.: Biosynthesis of cholesterol, 221
Coronary artery disease, and fatty acids, 262
COURT-BROWN, W. M.: Nuclear and allied radiations and the incidence of leukaemia in man, 168
—— & DOLL, R.: *Leukaemia and aplastic anaemia in patients irradiated for ankylosing spondylitis*, 194
CRAWFORD, J. S.: Anaesthesia for obstetrics: recent advances, 34
Cyclopropane in labour, effect on child, 35

D

DAVIDSON, J. N.: *The biochemistry of the nucleic acids*, 3rd ed., 277
DAVISON, M. H. A.: Disadvantages of controlled hypotension in surgery, 52
Deaths associated with anaesthesia, 69
Dehydroergosteryl acetate, 79
Dehydronorcholene, 79
Deoxycholic acid, 79
1: 2–5: 6-Dibenzanthracene, 79
1: 2–5: 6-Dibenzophenazine, 82
NN-Di-2-chloroethylaniline, 85
NN-Di-2-chloroethyl-*p*-aminophenylbutyric acid, 86
NN-Di-2-chloroethyl-*p*-toluidine, 85
Dictionary of scientific terms, 6th ed., 196
1: 2–3: 4-Diepoxybutane, 87
3: 2′-Dimethyl-4-aminodiphenyl, 83
DOLL, R., *see* COURT-BROWN, W. M., 194
DONIACH, I.: Experimental induction of tumours of the thyroid by radiation, 181

E

Eczema, infantile, relation to deficiency of essential fatty acids, 259
EDWARDS, G., MORTON, H. J. V., PASK, E. A. & WYLIE, W. D.: An investigation into deaths associated with anaesthesia, 69
Electroencephalography, application to surgical anaesthesia, 58
ELSON, L. A.: Some dynamic aspects of chemical carcinogenesis, 161
ENDERBY, G. E. H.: Advantages of controlled hypotension in surgery, 49
Endocrine carcinogenesis, 106
Epididymis, tumours, 110
EPSTEIN, H. G.: Principles of inhalers for volatile anaesthetics, 18
Ethanolamine phosphatide, role in blood coagulation, 254, 256

F

FAIRES, R. A. & PARKS, B. H.: *Radioisotope laboratory techniques*, 278
Fat absorption and its disorders, 212
—— faecal, origin and significance, 214
—— role in sterol absorption, 226
Fats, dietary, effect on blood lipids, 243
—— —— relation to ischaemic heart disease, 247
—— effect on blood coagulation, 253
Fatty acids, biosynthesis of, 201
—— —— essential, and human disease, 262
—— —— —— effects of deficiency on skin, 258
—— —— —— metabolic functions, 246
—— —— —— structural function, 260
—— —— synthesis, effects of hormones, 207
—— —— unesterified, removal from blood, 237
Fibrillation, ventricular, during hypothermia, treatment, 47
